

My comment is asking the FCC to carefully review the LPFM proposal. I personally listen to K-LOVE daily at home, work, and in the car. At all three places, I do not have to worry about hearing something inappropriate and offensive. I have 3 children whom listen to this wonderful radio station and my 12 year old has the station on all night. This station in particular offers the community a positive message instead of a dreadful outlook on the surrounding world. Please protect stations like K-LOVE! Thank you for your time.
